

COMMUNITY PARTNERSHIP FOR CHILDREN

Sheboygan County

UNITED WAY OF SHEBOYGAN COUNTY

# Born Learning Trail

**United Way of Sheboygan County** has always supported education programs, but in the last few years, early learning and development has been prioritized.

In the 2015-2016 year, the Community Partnership for Children (CPC) was launched. The CPC is an early learning initiative, focused on children ages prenatal to 4-years-old and their parents and caregivers.

The Born Learning Trail was a natural fit with the CPC, as it is a community engagement project that promotes physical activity, mental stimulation and bonding with parents and their children. There are 10 signs on each trail, describing different activities a parent and child can do together.

The first Born Learning Trail in Sheboygan County is installed at Generations in Plymouth. United Way of Sheboygan County is excited to install more Born Learning Trails to promote this engagement throughout the community!
