Introduction

Every three years, [Healthy Sheboygan County](#), a community-based initiative seeking to make positive changes in the health status of Sheboygan County residents, partners with local hospital systems and non-governmental organizations to assess the community's health needs and create a recommended set of health-related topics to prioritize over the next few years. This report is one of several summaries that illustrates the information gathered during the Community Health Needs Assessment (CHNA) process. The purpose of this Secondary Data Report is to consolidate secondary source information with the aim of creating a profile of the health status of Sheboygan County residents; primary indicators were not included and state and national comparisons were provided when available.

The information contained within this report comes from publicly available data sources including: the US Census Bureau's American Community Survey and 2010/2020 Decennial Census, the Wisconsin Department of Health Services' Wisconsin Interactive Health Statistics (WISH) query system, the Wisconsin Department of Health Services' Office of Health Informatics, the Wisconsin Department of Children and Families, the Wisconsin Department of Justice, the University of Wisconsin Population Health Institute's County Health Rankings, the Centers for Disease Control and Prevention's National Center for Immunization and Respiratory Diseases (NCIRD), Behavioral Risk Factor Surveillance System (BRFSS), the CDC's PLACES project, the Environmental Protection Agency (EJScreen tool), the National Vital Statistics System-Mortality (NVSS-M), the National Cancer Institute (NCI), the Wisconsin Health Association Information Center (WHAIC), and the US Diabetes Surveillance System. Tables were mainly compiled from a single source, however some tables contain information aggregated from several sources.

Data for each indicator were presented by race/ethnicity, gender, and various age groupings when available. Race data categorized as 'unknown' or 'missing' were rarely included in this report. Therefore, not all races are represented in the data that follow due to how information was presented from the source. Some tables present race data *'alone or in combination'*, which includes people who reported a single race alone (e.g., Asian) and people who reported that race in combination with one or more of the other major race groups (e.g., White, Black or African American, American Indian and Alaska Native, Native Hawaiian and Other Pacific Islander, and Some Other Race). The 'race alone or in combination' concept, therefore, represents the maximum number of people who reported as that race group, either alone, or in combination with another race(s). The sum of the six individual race 'alone or in combination' categories may add to more than the total population because people who reported more than one race were tallied in each race category.

In some cases data were not presented by the system from which they were obtained due to their internal confidentiality policies which specify that data will not be released when the number is less than five. In other cases, data were available but the rates or percentages are not presented in this report. This is due to the indicator having small numbers in the numerator or denominator resulting in rates or percentages that, in combination with other reported information, result in the display of a cell containing a value of 1 to 4.99, which conflicts with the reporting of a number less than five. These instances are denoted with grayed out cells. Cells with "N/A" represent data in which zero cases were reported. When available, state and national comparisons were provided.

Environmental Health - Sheboygan County

Prepared by the Sheboygan County Division of Public Health

Sheboygan Co.- Secondary Data Report

	Year	Sheboygan County	
Environmental Burden Index - Composite index consisting of a place's exposure to harmful environmental factors relating to air quality, pollution, and built environment. Higher values indicate a larger burden.	2024	0.65	High-Moderate
Air Pollution - Combined measure consisting of a place's exposure to ozone, particulate matter (PM2.5), diesel particulate matter, and its air toxics cancer risk score.	2018-2020	0.32	Low-Moderate
Air Pollution: Air Toxics Cancer Risk - Lifetime cancer risk from inhalation of air toxics. Air toxics cancer risk is a composite measure assessing the cancer risk associated with inhaling 140 different hazardous air pollutants (HAPs).	2019	0.03	Low
Water Pollution: Impaired Surface Water - Percentage of census tract watershed area classified as impaired. Waters may be classified as impaired due to elevated levels of waterborne pathogens or significant contamination by toxic substances. Waterborne pathogens can pose a significant health risk through recreational exposure and ingesting fish from chemically-impaired waters can be a significant exposure pathway for a number of pollutants that bioaccumulate in tissues.	2023	0.49	Low-Moderate
High Estimated Prevalence of Asthma - Estimated prevalence of asthma among adults greater than for 66.66% of U.S. census tracts. Outdoor air pollution is associated with increases in asthma attacks and asthma-related ED visits. Inhaling pollutants, such as PM2.5, ozone, and diesel particulate matter, can lead to oxidative stress, which inflames the airways and exacerbates asthma symptoms.	2024	No

Child Mortality	Number of deaths among residents under age 18 per 100,000 population.	55	50	50
Infant Mortality	Number of infant deaths (within 1 year) per 1,000 live births.	6	6	6
Frequent Physical Distress	Percentage of adults reporting 14 or more days of poor physical health per month (age-adjusted).	11%	12%	14%
Frequent Mental Distress	Percentage of adults reporting 14 or more days of poor mental health per month (age-adjusted).	16%	17%	19%
Diabetes Prevalence	Percentage of adults aged 20 and above with diagnosed diabetes (age-adjusted).	9%	9%	11%
HIV Prevalence	Number of people aged 13 years and older living with a diagnosis of (HIV) infection per 100,000 population.	75	138	393
Health Factors		Sheboygan County	Wisconsin	United States
Health Behaviors				
Adult Smoking	Percentage of adults who are current smokers (age-adjusted).	14%	15%	15.8%
Adult Obesity	Percentage of the adult population (age 18 and older) that reports a body mass index (BMI) greater than or equal to 30 kg/m2 (age-adjusted).	41%	38%	38%
Food Environment Index	Index of factors that contribute to a healthy food environment, from 0 (worst) to 10 (best).	9.2	8.8	7.4
Physical Inactivity	Percentage of adults age 18 and over reporting no leisure-time physical activity (age-adjusted).	19%	21%	27%
Access to Exercise Opportunities	Percentage of population with adequate access to locations for physical activity.	86%	84%	84%
Excessive Drinking	Percentage of adults reporting binge or heavy drinking (age-adjusted).	26%	24%	19%

Sheboygan Co.- Secondary Data Report

Alcohol-Impaired Driving Deaths	Percentage of driving deaths with alcohol involvement.	27%	33%	26%
Sexually Transmitted Infections	Number of newly diagnosed chlamydia cases per 100,000 population.	304.6	435.7	492.2
Teen Births	Number of births per 1,000 female population ages 15-19.	11	11	15%
Additional Health Behaviors (not included in overall ranking)				
Food Insecurity	Percentage of population who lack adequate access to food.	9%	11%	14%
Limited Access to Healthy Foods	Percentage of population who are low-income and do not live close to a grocery store.	2%	5%	6%
Drug Overdose Deaths	Number of drug poisoning deaths per 100,000 population.	27	29	32
Insufficient Sleep	Percentage of adults who report fewer than 7 hours of sleep on average (age-adjusted).	33%	34%	37%
Clinical Care				
Uninsured	Percentage of population under age 65 without health insurance.	5%	7%	10%
Primary Care Physicians	Ratio of population to primary care physicians.	1,635:1	1,251:1	1,330:1
Dentists	Ratio of population to dentists.	1,592:1	1,363:1	1,360:1
Mental Health Providers	Ratio of population to mental health providers.	553:1	375:1	300:1
Preventable Hospital Stays	Rate of hospital stays for ambulatory-care sensitive conditions per 100,000 Medicare enrollees.	2,311	2,498	2,666
Mammography Screening	Percentage of female Medicare enrollees ages 65-74 that received an annual mammography screening.	45%	50%	44%
Flu Vaccinations	Percentage of fee-for-service (FFS) Medicare enrollees that had an annual flu vaccination.	59%	53%	48%
Additional Clinical Care (not included in overall ranking)				

Sheboygan Co.- Secondary Data Report

Uninsured Adults	Percentage of adults under age 65 without health insurance.	6%	7%	11%
Uninsured Children	Percentage of children under age 19 without health insurance.	4%	5%	5%
Other Primary Care Providers	Ratio of population to primary care providers other than physicians.	785.1	633.1	680:1
Social & Economic Factors				
High School Completion	Percentage of adults ages 25 and over with a high school diploma or equivalent.	94%	93%	89%
Some College	Percentage of adults ages 25-44 with some post-secondary education.	65%	70%	68%
Unemployment	Percentage of population ages 16 and older unemployed but seeking work.	2.5%	3.0%	3.6%
Children in Poverty	Percentage of people under age 18 in poverty.	12%	13%	16%
Income Inequality	Ratio of household income at the 80th percentile to income at the 20th percentile.	3.5	4.2	4.9
Children in Single-Parent Households	Percentage of children that live in a household headed by a single parent.	20%	22%	25%
Social Associations	Number of membership associations per 10,000 population.	14.3	11.1	9.1
Injury Deaths	Number of deaths due to injury per 100,000 population.	92	97	84
Additional Social & Economic Factors (not included in overall ranking)				
High School Graduation	Percentage of ninth-grade cohort that graduates in four years.	92%	90%	87%
Disconnected Youth	Percentage of teens and young adults ages 16-19 who are neither working nor in school.	5%	5%	7%
Reading Scores	Average grade level performance for 3rd graders on English Language Arts standardized tests.	2.9	3.0	3.1
Math Scores	Average grade level performance for 3rd graders on math standardized tests.	3.0	3.0	3.0

Sheboygan Co.- Secondary Data Report

School Segregation	The extent to which students within different race and ethnicity groups are unevenly distributed across schools when compared with the racial and ethnic composition of the local population. The index ranges from 0 to 1 with lower values representing a school composition that approximates race and ethnicity distributions in the student populations within the county, and higher values representing more segregation.	0.14	0.27	0.24
School Funding Adequacy	The average gap in dollars between actual and required spending per pupil among public school districts. Required spending is an estimate of dollars needed to achieve U.S. average test scores in each district.	\$2,966	\$1,807	\$1,411
Gender Pay Gap	Ratio of women's median earnings to men's median earnings for all full-time, year-round workers, presented as "cents on the dollar."	0.81	0.81	0.82
Median Household Income	The income where half of households in a county earn more and half of households earn less.	\$73,970	\$74,671	\$77,700
Living Wage	The hourly wage needed to cover basic household expenses plus all relevant taxes for a household of one adult and two children.	\$50.55	\$54.04	
Children Eligible for Free or Reduced Price Lunch	Percentage of children enrolled in public schools that are eligible for free or reduced price lunch.	38%	40%	56%
Residential Segregation - Black/White	Index of dissimilarity where higher values indicate greater residential segregation between Black and white county residents.	72	77	63
Child Care Cost Burden	Child care costs for a household with two children as a percent of median household income.	32%	31%	28%
Child Care Centers	Number of child care centers per 1,000 population under 5 years old.	6	6	7
Homicides	Number of deaths due to homicide per 100,000 population.	2	5	7

Sheboygan Co.- Secondary Data Report

Suicides	Number of deaths due to suicide per 100,000 population (age-adjusted).	14	15	14
Firearm Fatalities	Number of deaths due to firearms per 100,000 population.	10	12	14
Motor Vehicle Crash Deaths	Number of motor vehicle crash deaths per 100,000 population.	8	11	12
Voter Turnout	Percentage of citizen population aged 18 or older who voted in the 2020 U.S. Presidential election.	75.9%	75.1%	67.9%
Census Participation	Percentage of all households that self-responded to the 2020 census (by internet, paper questionnaire or telephone).	78.5%		67.9%
Physical Environment				
Air Pollution - Particulate Matter	Average daily density of fine particulate matter in micrograms per cubic meter (PM2.5).	7.7	7.7	7.3
Drinking Water Violations	Indicator of the presence of health-related drinking water violations. 'Yes' indicates the presence of a violation, 'No' indicates no violation.	No		
Severe Housing Problems	Percentage of households with at least 1 of 4 housing problems: overcrowding, high housing costs, lack of kitchen facilities, or lack of plumbing facilities.	10%	12%	17%
Driving Alone to Work	Percentage of the workforce that drives alone to work.	78%	76%	70%
Long Commute - Driving Alone	Among workers who commute in their car alone, the percentage that commute more than 30 minutes.	15%	28%	37%
Additional Physical Environment (not included in overall ranking)				
Homeownership	Percentage of owner-occupied housing units.	71%	68%	65%
Severe Housing Cost Burden	Percentage of households that spend 50% or more of their household income on housing.	8%	11%	15%
Broadband Access	Percentage of households with broadband internet connection.	90%	89%	90%
